Appealing bathroom design

Experience **DESIGN**

Stylish design has always been Villeroy & Boch's trademark. With a fine sense for trends, we design distinctive bathrooms that make life more beautiful and more comfortable.

Today, beautiful design in the bathroom goes without saying. It creates an atmospheric setting, invites you to relax and offers space for individual style. At Villeroy & Boch, we recognised the importance of design as a feel-good factor early on. For more than 100 years, we have been transforming functional washrooms into stylish living spaces – with timelessly modern forms and designs that shape the relevant trends in the bathroom. Designed by high-profile international designers and our own award-winning designers,

whether in purist lines or sensually elegant, each and every one of our bathroom collections has a distinctive face. With their successful composition of aesthetics and functionality, of sustainability and comfort, for many years they have delighted design juries from around the world. So why not give in to the inspiration of exquisite bathroom collections and first-class designs that perfectly reflect your style? Experience your very own personal feel-good moments – in your bathroom by Villeroy & Boch.

Discover **INNOVATION**

Day after day, you can experience the results of our research and development: with great attention to detail, our innovative products and solutions make every minute in the bathroom pure pleasure.

Much of what goes without saying in the bathroom is the result of our search for better solutions. With fresh ideas, state-of-the-art technology and all of our expertise, for decades we have succeeded in designing an ever-more comfortable bathroom. It starts with materials that are pleasant to the touch such as Quaryl®, and our innovative designs are far from the end of the story. From the dirt-resistant finish to the water-saving toilet flush, at Villeroy & Boch you will find a host of game-changing products that leave you feeling safe and carefree.

Still, expectations of comfort and functionality, of design and hygiene, are on the rise. And technology continues to evolve as well. That is why we are already working to make the bathroom even more beautiful and better for you. Today, we are pleased to present one of our latest developments: TitanCeram. A high-quality material that permits impressively delicate, strong bathroom ceramics – and thus a completely new language of design. Discover the numerous innovations Villeroy & Boch has to offer, and join us as we enter the future of the bathroom.

Enjoy **QUALITY**

Since 1748, the name Villeroy & Boch has been a byword for the utmost in quality and dependability. With precise craftsmanship, state-of-the-art technology and strict quality standards, we create products that, even many years later, function just as well as they did on the first day.

When it comes to the quality of our products, perfection is always the goal. We want you to feel at home in your Villeroy & Boch bathroom for many years to come. That's why you will find that we offer a variety of reliable solutions that all share one thing in common: first-class quality and a particularly long service life. We ensure this with all our experience, but also with new ideas, with constant research and strict quality testing. As a result, our products must pass more than 25 checks, from tests of raw materials through to delivery.

An effort that's worth it: after all, bathrooms are replaced just once every 20 years or so. And an expectation you can experience in every detail. It is evident in the careful workmanship of our products – and in their perfect functionality. You can recognise it in scratchproof and dirt-repellent ceramics, in silently closing drawers, and in many other special features that make your stay in the bathroom an absolute delight. With every product we make, you can rest assured of owning a piece of lasting value.

ANTHEUS
Distinctly elegant

PERFECT INTERACTION
Antheus is a magnificently elegant bathroom collection – from the bathroom ceramics to the cabinets or mirrors, each element radiates stylish beauty.

FINEST MATERIALS
Made from TitanCeram, the vanity washbasins are complemented by vanity units with real wood veneers in American Walnut or Black Ash.

Every line makes a statement here and each item has enduring value: the Antheus collection reflects the style classics of the Modern age. Premium materials and Art Deco-style geometric contours meet the puristic beauty of Bauhaus design. The clearly-defined edges of the washbasin, toilet and bath come together with a novel faceted effect to create an impression of lightness. Transforming premium ceramic, polished stainless steel, elegant marble and fine wood into a new modern classic – Antheus from Villeroy & Boch. Marvel at its magnificent elegance.

Sublimely fine forms

DELICATE LIGHTNESS

Thanks to our novel TitanCeram material, it is now possible for the first time to manufacture products with extremely thin walls for incomparable design creations. With Artis, for example, we have created a fine form, just 8mm thick, that lends the washbasins an especially delicate appearance.

Colours and forms are an expression of personality and a popular way to bring more style to modern interior design. Artis, Villeroy & Boch's premium edition of surface-mounted washbasins, helps you express your personal style. Choose from 3 shades of white and 15 harmonious colours developed by designer Gesa Hansen and based on the seasonal colours in Paris. WHIRLPOOL SYSTEMS

Each of the three whirlpool systems is available with different comfort features

Air jets in the base of the bath

AIRPOOL

The air system for an invigorating massage. In the AirPool, air is injected into the bath through special jets and dispersed as fine bubbles. These air jets are located in the base and ensure a stimulating massage. The pipes to the base jets are blown dry after use.

Water jets in the sides of the bath

HYDROPOOL

The water system for targeted body massage. Water is extracted and pumped back into the bath through water jets. The HydroPool massage jet stimulates the muscles and local metabolism. Residual water is drained away.

Air jets in the base and water jets in the sides of the bath

COMBIPOOL

The combination of AirPool and HydroPool offers the best of both worlds: air jets in the base of the bath and water jets, depending on the model, in the back, at the sides and/or in the foot area. The jets can also be adjusted and used separately, for an all-round body massage that gently eases tensions and stimulates the circulation. The CombiPool is also used for hydrotherapy. Residual water is drained away and the base jets blown dry.

CERAMICPLUS

Less cleaning – more time to enjoy life

For almost 20 years, CeramicPlus, the dirt-repellent ceramic surface finish, has been helping millions of customers keep their bathrooms clean. The innovative finish causes water to form droplets on contact that simply flow off the surface, taking the dissolved dirt and limescale with them. And should any deposits remain, CeramicPlus is much easier to clean. Even dried limescale is easier to remove in an environmentally-friendly manner without the use of aggressive cleaning agents – a real advantage in the bathroom! Tested and confirmed by wfk - Institute for Applied Research.

BATHROOM FURNITURE FROM
VILLEROY & BOCH

Masterly craftsmanship

FINION

The filigree lines of the Finion bathroom collection provide the perfect frame for bathroom furniture that conforms to your requirements. From the design of the front panels and the finish to the lighting effects, many details can be adapted to suit your personal taste. Thanks to the convenient Push-to-Open drawers the furniture has no need for handles. The surfaces in elegant matt colours are finished with four coats of high-quality Premium lacquer. You can find more information on Finion on page 30.

Working with high-quality materials calls for maximum care. The wood is meticulously air-dried. The grain, structures and also the surface colours are continuously monitored. Edges and corners are also sealed in accordance with the most stringent criteria. The surface and interiors of all furniture items are completed by dedicated and skilled experts and every production stage is subject to continuing quality controls. You can count on that.

VENTICELLO

A clear design and modern look and feel – the furniture in the Venticello bathroom collection fascinates with minimalist lines and an aesthetic lightness. Whether you prefer an elegant wood structure or trendy glass fronts, the furniture can be adapted to suit your own style and personalised with different handle colours. The decorative contrasts between light and shade on the scratch-resistant glass fronts are particularly stylish, as are the brilliant reflections. Additional colour combinations for the Venticello bathroom collection on page 64.

LEGATO

Impressively sleek, the Legato bathroom furniture fascinates with sophisticated details such as LED lighting beneath the washbasin countertop.

Together with the bevelled edges, this creates the impression of lightness, as if the countertop were floating. Handle-free fronts complete the straight lined look perfectly. Discover more on Legato on page 42.

HOMMAGE

The exquisite Hommage bathroom furniture is a testament to its origins. That's because every step is carried out with the most meticulous workmanship and passion. The washbasin countertops made of top quality marble and the ceramic knobs on the drawers demonstrate impeccable style down to the very last detail. More on the Hommage collection on page 38.

real-wood veneer*

ANTHEUS

The furniture in the Antheus bathroom collection is characterised by clear lines and purist forms. The surface-mounted washbasin is showcased by a stylish, faceted marble countertop that is supported by an elegantly-curved stainless steel frame. Diverse cabinets with real wood veneer in American Walnut or Black Ash and cleverly integrated handles complete the picture. There's more on Antheus on page 18.
