**Select your Shower Pleasure.**

Raindance<sup>®</sup> Select.

**Water in your favourite form.**

**Raindance® Select E 300**  
overhead shower

Soft, light drops or strong, invigorating jets? Your click decides.

**Raindance® Select E 120** hand shower

Refreshing jet, gently enveloping drops or a strong massage: yours to enjoy at the touch of a button.

**Raindance® Select E 300** Showerpipe

Hand shower, overhead shower and thermostat combined in perfect beauty.

# Simple – or simply brilliant?

Select: the technology of pleasure.

We don't just want our ideas to revolutionise the way we use water; we also want to set new standards in comfort and control. Above all else, Hansgrohe developments should be fun. This thought goes with every single deliberation we make, and every line drawn by our designers.

So our most recent milestone comes, not with extensive user instructions, but as an elegant button that contains a vast amount of listening, thinking, trialling and development. It will change your shower experience, because now you can change the spray type with a simple click. Whether soft, airy drops,

revitalising jets or a targeted massage: thanks to Select, you can now enjoy water however you like.

# Shower or all-rounder?

Raindance® Select E 120: the new hand shower that rinses out all traces of shampoo from even the longest hair and lets the water stroke or massage you.

First a strong, revitalising **Rain spray**. Then gentle, stroking **RainAir**. Or perhaps more concentrated, with a massaging **Whirl?** It's fun to keep experiencing water in different forms - and even more so if there's only a touch of a button between them. Thanks to

the Select button, you can switch between the various sprays of the Raindance Select E 120 hand shower with ease. And as well as wanting to make every single second in the shower enjoyable, we think of the long term too - so the hand shower is also available in an

EcoSmart version. Thanks to the intelligent flow rate limitation, it reduces the water consumption by up to 40%.

You will find explanations of the functions on the fold-out page at the end of the brochure.

# Wake up or switch off?

Raindance® Select E 300: with strong Rain jet and soft RainAir spray types.

We all have our individual sources of strength that help us to get going in the morning, to relax in the evening, and to recharge our batteries after sporting activities. One of the loveliest of these sources bears the

name Raindance Select. The strong **Rain** jet of the overhead shower rinses out every trace of shampoo, or envelops you in a soft **RainAir** curtain of drops – a simple click of the Select button is all it takes to change the spray type.

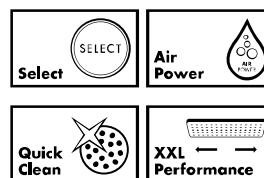

And cleaning is just as easy as choosing your favourite water form: thanks to QuickClean, limescale deposits are simply removed by rubbing over the flexible silicone nubs.

RainAir

You will find explanations of the functions on the fold-out page at the end of the brochure.

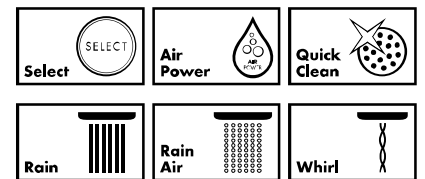

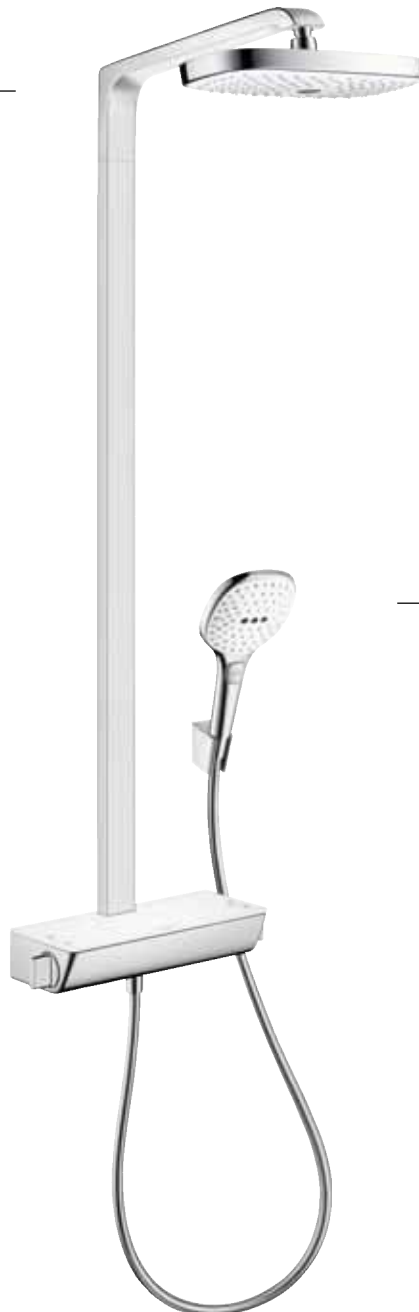

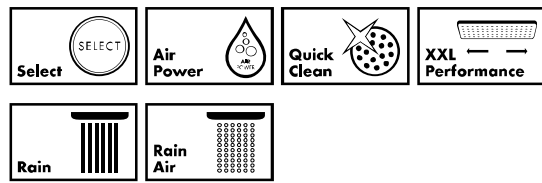

# Shower or feel-good programme?

Raindance® Select E 300 Showerpipe: the combination of overhead shower, hand shower and thermostat.

From the revitalising or relaxing rain of the overhead shower and the handshower's three spray types, to the multifunctional thermostat: choose the Raindance Select Showerpipe and you will enjoy comfort and pleasure to the full, combined with the benefit

of striking design. After all, every Hansgrohe solution is equally measured by its ability to offer intelligent functions as good looks. And, even more importantly: by your personal concept of the perfect shower feeling. The Showerpipe is easy to attach to existing wall

connections, which makes it the perfect solution for uncomplicated bathroom refurbishments.

You will find explanations of the functions on the fold-out page at the end of the brochure.

# Twice, or three times as nice?

Ecostat® Select and shower set: the perfect companions for your hand shower.

The bathroom should be a place of well-being. It is where you can leave the world outside, and simply focus on your own desires. Your shower will help you, reliably

controlled by a state-of-the-art thermostat: the Ecostat Select. It is controlled intuitively, represents the highest design standards, and blends seamlessly with the Raindance Select E

120. Easy to install, it is perfect for upgrading and is available in two lengths and finishes.

### More safety.

The insulated body with rounded corners protects against heat and knocks.

### More surface.

The level surface is easy to clean, and offers plenty of space for shower utensils.

### More comfort.

The controls fit well in the hand, and are perfect for precise settings.

### More control.

Ecostat Select maintains the chosen water quantity and temperature at consistent levels.

### More well-being in a set.

65 or 90 cm wall bar, chrome or white/ chrome finish - the shower set is ideal for any bathroom.

# Varied or unique?

Raindance® Select: the complete range.

# Switch off or immerse?

Raindance® Rainfall®: the waterfall shower.

Even though we are constantly blazing new trails, there is something we do like to base ourselves on: nature. We based our flood shower on one of her designs. It provides a shower that is akin to standing under a tropical waterfall, with the strong volume of RainFlow or choose the softer spray of RainStream. Turn the tap, close your eyes – and the shower becomes a mini break.

## Raindance® Rainfall® 150

The surge spray washes the day away with its generous width. A shower that is as refreshing as it is unique.

# 26442, -000

## Raindance® Rainfall® 150 Stream

The twelve soft sprays patter gently on the head and shoulders. This is how nice it can feel to have nature in your home.

# 26443, -000

# Resourceful Hansgrohe.

Innovations for water.

Even though – or perhaps because? – water surrounds us every day here at Hansgrohe, we don't see it as a matter of course. Using it sustainably is important to us, and we are constantly researching and working on technologies that help us to achieve this. One of them is EcoSmart, which noticeably reduces the water consumption of our products without loss of performance.

## Save with EcoSmart

Find out more about sustainable technology: [www.hansgrohe-int.com/ecosmart](http://www.hansgrohe-int.com/ecosmart) and find out how much energy and water you can save with our products: [www.hansgrohe-int.com/savings](http://www.hansgrohe-int.com/savings) or the mobile version at <http://m.savings.hansgrohe-int.com/>
